

The first section below of this spreadsheet reflects the operational status of DGS-managed buildings on furlough days. Open means that 51 percent or more of the tenants will be working. Buildings that remain open will have minimal staffing and operate normally. Closed means that the building will not be open to the public and heating, ventilation and lighting will be turned off as it is on a weekend. Some buildings allow employees to turn heating and ventilation on in select office areas. Limited means that the building will have security on staff to allow the public to access only those offices highlighted in the "Notes" section. Please contact DGS with any questions at (916) 376-5037.
